Webex for Gamma Accreditation

Why become Webex for Gamma Accredited?

Welcome to Webex for Gamma.

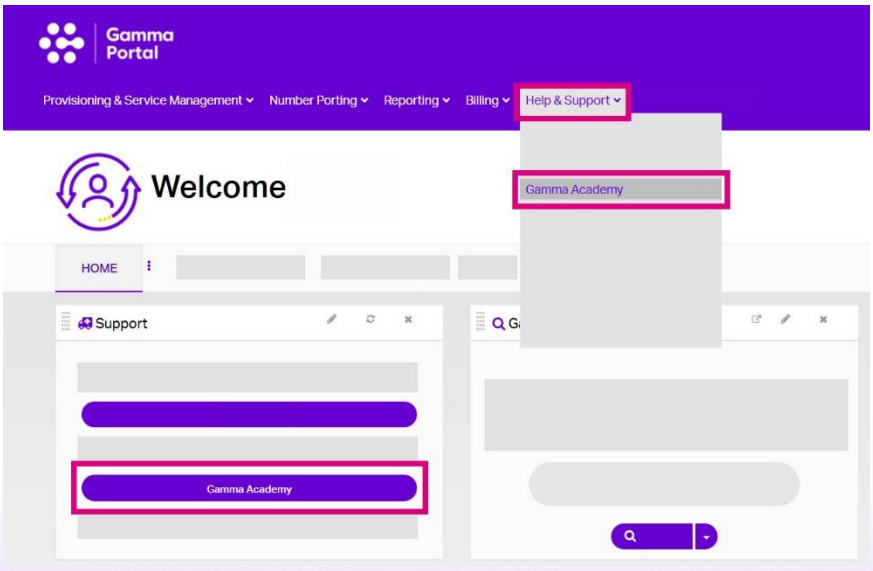

Webex for Gamma is a robust, enterprise-grade communication and collaboration platform tailored for your business. It combines advanced calling, messaging, and meeting capabilities into a single, seamless solution, all underpinned by Gamma's reliable, high-performance network and comprehensive service wrap. Optimised for organisations that demand high security, scalability, and deep integration with existing systems, Webex for Gamma enables teams to work smarter, respond faster, and compete more effectively in today's dynamic business landscape.

The Webex for Gamma training materials on the Gamma Academy are designed to produce experts who can better provision, sell and support Webex for Gamma.

How do I access the Gamma Academy?

Channel Partner access to the Gamma Academy is available through the Gamma Portal.

To access, log in to the Gamma Portal and select 'Gamma Academy' from the 'Support' widget or the 'Help & Support' drop-down menu. This will direct you to your Academy dashboard. For new accounts, please allow up to 2 hours for your training to appear.

How do I become Webex for Gamma Accredited?

Please follow these very simple steps to become fully accredited.

Step 1: Product Information

- View and complete the Webex for Gamma: Product information page, a short course that has been developed to help you learn more about our Webex for Gamma offering.

Step 2: Webex for Gamma Sales

- Earn your badge for the Webex for Gamma Sales Accreditation (mandatory)
- Attend the Webex for Gamma Sales Accreditation Bootcamp event (optional)

Step 3: Provisioning, technical and support

- Complete the Webex for Gamma Technical Accreditation course and earn your provisioning, support, and technical accreditation badges.

Helpful Collateral

For sales and marketing collateral please go to Accelerate on the Gamma Portal and download the materials. For the service description, please go to the Gamma Academy Knowledge Base's 'Webex for Gamma' section and click 'Service Description'.

Step 1: Webex for Gamma: Product Information (mandatory)

This course is designed for both Sales representatives and Technical and Provisioning personnel.

Upon taking the decision to add Webex for Gamma to your product portfolio, the first step is to complete the product information page.

The Webex for Gamma product information page provides a high-level introduction to the service, including:

- A product introduction video
- Why choose Webex for Gamma?
- Minimum system requirements; And
- Which Webex package is right for your business?

Step 2: Webex for Gamma Sales Accreditation (mandatory)

This course is designed for Sales representatives or optional further reading for Technical and Provisioning personnel.

This course covers the following topics:

- The relationship between Cisco and Gamma
- What makes Webex stand out from the competition
- The benefits and key features of Webex for Gamma
- Where to find further information.

Step 3: Webex for Gamma Sales Accreditation Bootcamp (optional)

This event is designed for Sales representatives.

These events are in high demand, and spaces are limited, so we recommend reserving your place as soon as possible. This event covers the following topics:

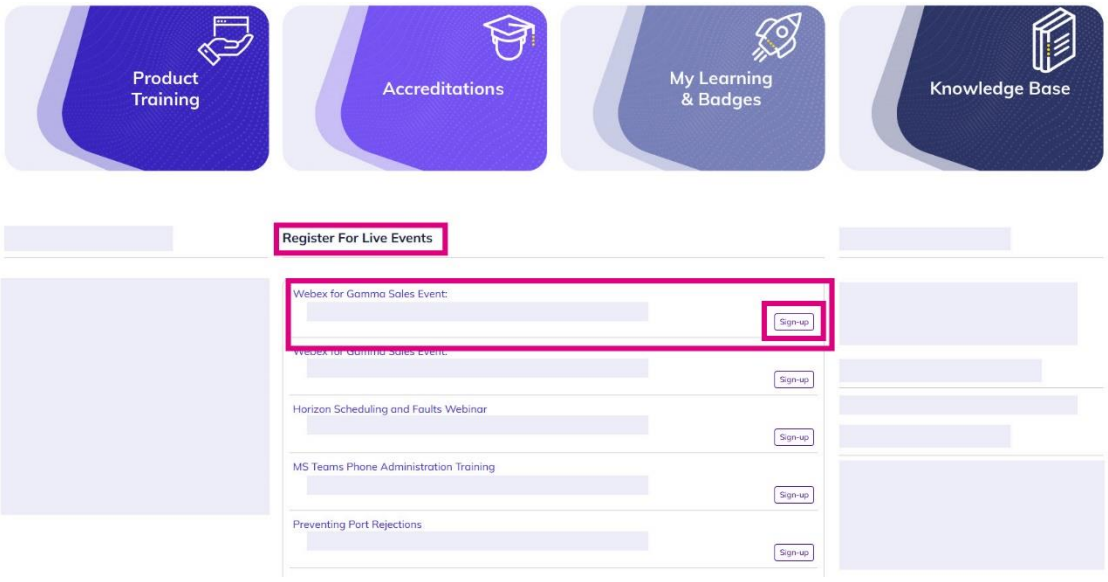

- An introduction to the Webex for Gamma service and Gamma's proposition
- An overview of Webex for Gamma's features and subscription packages
- An introduction to the Webex user and administrator portals
- A discussion around commercials, deal stacking and what's next.

Step 4: Webex for Gamma Accreditation Course (mandatory)

This course is designed for Technical and Provisioning personnel, or optional further reading for Sales representatives.

Webex for Gamma is provisioned entirely online via the Gamma Portal. This accreditation has been designed to guide you through the provisioning process, outlining best practices for setting up and configuring your customer's Webex for Gamma service and dealing with any support queries and known behaviours.

The Webex for Gamma Accreditation encompasses the following key learning outcomes:

- Provisioning Webex for Gamma for your end user companies
- Getting started with Control Hub
- Setting up a customer organisation
- Device provisioning and management
- End user support, troubleshooting and known behaviours.

The associated badges will be earned upon completion of the provisioning, support and overall accreditation modules respectively:

Provisioning Webex for Gamma (following training completion)

Once you have completed your Webex for Gamma Accreditation and earned your Webex for Gamma Accredited badge, you can contact your account manager at salessupport@gamma.co.uk

Your account manager will then provide you with access to the Webex for Gamma provisioning area on the Gamma Portal.
